

Week 8

meeting with sir saad update SRS
Functional Requirement
discuss workflow

Prototype Workflow - Focusing only on 2 domain as of now (Admissions & Examinations)
Written Queries(English) -> Chatbot(Developer End. - Acts as NLU - Takes Input text and outputs json i.e., entities, queries, user ids etc.) -> Fetch data from KG/Ontology based on the json query -> response back to chatbot(Dev. end) -> outputs simple answers.
