QUAID'S MESSAGE

You know that the importance of education and the right type of education cannot be over-emphasized. Under foreign rule for over a century, in the very nature of things, I regret, sufficient attention has not been paid to the education of our people, and if we are to make any real, speedy and substantial progress, we must earnestly tackle this question and bring our educational policy and program on the lines suited to the genius of our people, consonant with our history and culture, and having regard to the modern conditions and vast developments that have taken place all over the world.

There is no doubt that the future of our State will and must greatly depend upon the type of education and the way in which we bring up our children as the future servants of Pakistan. Education does not merely mean academic education, and even that appears to be of a very poor type. What we have to do is to mobilize our people and build up the character of our future generations. There is immediate and urgent need for training our people in the scientific and technical education in order to build up future economic life, and we should see that our people undertake scientific commerce, trade and particularly, well planned industries. But do not forget that we have to compete with the world, which is moving very fast in this direction.

In short, we have to build up the character of our future generations which means highest sense of honor, integrity, selfless service to the nation, and sense of responsibility, and we have to see that they are fully qualified or equipped to play their part in the various branches of economic life in a manner which will do honor to Pakistan.

Over a dozen hostels accommodate all female students and a limited number of male students. With an affordable fee structure, the University provides a host of scholarships, internships and business opportunities to the needy and meritorious students. HRDC is serving as dynamic hub of skills development, professional growth and innovation – equipping faculty, staff and students with the tools they need to thrive in an ever-evolving job market.

Its main campus, located in the heart of Sargodha city, is green and serene. The University prioritizes the promotion of critical learning and scholarship among its students and young faculty. Each semester, it remains abuzz with a variety of scholarly, co-curricular and sports activities, including seminars and conferences, sports gala and literary festival. The University also runs an FM radio station, offering infotainment and education to students and people of the region.

To ensure productive research, the University has established vibrant institutions, including the Office of Research, Innovation and Commercialization, and Quality Enhancement Cell, which have helped register several international patents for faculty in sciences and agriculture, besides funding research projects and publications and linking academic research with the local economy. The University runs a Citrus Nursery and produces its own mineral water, KhusAab, for faculty, staff and students. It also has a strong tradition of community service, with its Medical Complex and Research Centre offering telemedicine, OPD, pharmacy and diagnostic services to university students and staff as well as the people of the city.

The University has an ambitious agenda of quality-centric academic growth in the foreseeable future. It ultimately aims to become a hub of higher education in Pakistan and South Asia.

For 4-Year Program

In order to calculate the GPA, multiply GP with the Credit Hours of each Course to obtain total grade points of the course, add up to Cumulative Grade Points and divide by the total number of Credit Hours to get the GPA for the semester.

Example-I (Semester - I) (Must obtain minimum 1.75 GPA and pass 50% courses)

Course	Marks Obtained	Grade Point	Letter Grade	Credit Hours	Total GPS
C1	45	1.50	D	3	1.50 x 3 = 4.50

			Total	16	33.18

Total 33.18 GPA = $33.18 \div 16 = 2.07$ (Dropped due to low GPA)

For calculating CGPA, sum total of GPs in all semesters earned in different courses multiplied by respective credit hours of a course and divided by total number of credit hours.

Total (GP x Credit Hours) of all courses

$$\text{CGPA} = \frac{\text{Total (GP x Credit Hours) of all courses}}{\text{Total Credit Hours of all courses}}$$

Total grade points in till 2nd semester = $46.14 + 32.22 = 78.36$

C14	38	0.00	F	3	$0.00 \times 3 = 0.00$
C15	35	0.00	F	0	$0.00 \times 3 = 0.00$
		Total		15	20.70

Total 20.70 GPA = $20.70 \div 15 = 1.38$

For calculating CGPA, sum total of GPs in all semesters earned in different courses multiplied by respective credit hours of a course and divided by total number of credit hours.

$$\text{CGPA} = \frac{\text{Total (GP} \times \text{Credit Hours) of all courses}}{\text{Total Credit Hours of all courses}}$$

Total grade points in till 3rd semester = $46.14 + 32.22 + 20.7 = 99.06$

Total credit hours till 3rd semester = $16+12+15= 43$

CGPA = $99.06 / 43 = 2.30$ (Dropped due to failure in more than 50% courses)

On the similar pattern GPA and CGPA may be calculated and promotion status may be determined in the light of regulation 11.6
